SOURCE: Statewide Data Package: Outcome Measures and Performance Indicators, October 1, 2003 - September 30, 2008 Prepared for Pennsylvania Department of Public Welfare, Office of Children, Youth and Families by Hornby Zeller Associates, Inc. and 2000 Census, U.S. Bureau of the Census

- Rate Rate Per 1000 children age 13 -18 from 2000 Census
- Pct Total Percent of youth in foster care for each race/ethnicity
- DPOP Racial disproportionality computed by dividing Pct Total within table to general population breakdown
- DI Disparity Index - Comparison of disproportionality of all other race/ethnicity categories to white disproportionality

*Only these 8 counties are able to report multiple races. All other counties report only one race and are also unable to report Pacific Islander/ Native Hawaiian as a race.

- Latino is not a race but an ethnicity.
- The "Other" Category in AFCARS includes youths who were not white and not African American, and it also includes unable to determine. With this method, the only bi-racial youths duplicated are the white/African American combination.
- The "Other" category in Census is simply subtracting white and African American from the total.
